STATEMENT OF REASONS FOR ALLOWANCE

The amendment to the claims overcomes all outstanding rejections. The claims now recite that a "high impedance" is applied to the "sense input" when the "power device" is on and a "low impedance" is applied when the "power device" is off. Since this additional feature is not disclosed or otherwise deemed obvious in the cited prior art, the claims are now deemed allowable.

Conclusion

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
